1. This office action, in response to the amendment filed 8/7/2003, is a final office action.

Response to Amendment

2. Applicant's arguments with respect to claims 13-24 have been considered but are moot in view of the new ground(s) of rejection.

Information Disclosure Statement

3. The information disclosure statement (IDS) submitted on 8/7/2003 is being considered by the examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13-24 are rejected under 35 U.S.C. 102(b) as being anticipated by
Duckeck et al (US 5,493,709).

Regarding claims 13 and 23, Duckeck discloses a method for selecting digitally coded data from a plurality of transmitters (title). The transmitters transmit messages

containing coordinate data to the receiver (column 2, lines 37-41). From this information, the receiver determines its location (column 2, lines 37-41).

Regarding claim 14, the coordinate data of the transmitter is transmitted from a position inside the transmitters validity range (column 2, lines 51-56).

Regarding claim 15, the data transmitted from the transmitter contains coordinate data (column 2, lines 37-41) and radius information (column 2, lines 51-56).

Regarding claim 16, all of the transmitters transmit coordinate and radius information.

Regarding claims 17 and 18, the transmitters also transmit traffic information corresponding to a particular region (column 2, lines 17-36).

Regarding claims 19-22, the data transmitted from the transmitter contains coordinate data (column 2, lines 37-41) and radius information (column 2, lines 51-56).

Regarding claim 24, any traffic information relevant to the receiver is automatically selected by the receiver (column 2, lines 17-36).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
